## A Message from our Program Director, Dr. Scott Lind:

Mission Statement: The General Surgery residency program at Orange Park Medical Center (OPMC) has goals that are aligned with the goals of HCA Healthcare. Simply stated, we are committed to the care and improvement of human life. Our mission is to provide compassionate care and exceptional service to every patient, every day. More specifically, the goal of the General Surgery residency program is to provide a learner-centered, competency-based, supportive environment where residents develop the knowledge, skills, and attitudes required for high-quality, independent surgical practice. An important goal of our program is also to teach and role model the delivery of high quality, patient-focused healthcare as part of a team that involves a variety of healthcare professionals.

The program is ACGME approved for 3 categorical general surgery residents per year and we started our first class of PGY-1 residents off-cycle in November of 2019. We offer a personalized, learner-focused program with a strong emphasis on educational excellence. The program has all the opportunities of larger programs but there is greater potential to develop a closer teaching relationship with our faculty who are committed to your personal and professional development. We are looking for enthusiastic learners who can help shape not only the residency program but the future of General Surgery!
